## Eligibility Criteria

- a. A master's degree in the relevant subject
- b. Pursuing PhD in anti-doping from a recognised university as per UGC guidelines
- c. An approved synopsis for research on anti-doping topic

## Fellowship Process

- a. NADA India will jointly host the Anti-Doping Research Fellowship with host institution of the PhD Scholar
- b. Host institution will release the Fellowship notification and invite applications from interested and eligible candidates
- c. Host institution will review the applications and make the recommendation for selection through an internal committee
- d. Host institution will communicate the decision to NADA India directly
- e. NADA India will release the funds to the host institution, which may disburse the amount to the selected PhD Scholar
- f. Host institution will provide a guide to the Fellow to undertake the research/ study
- g. NADA India will provide technical expertise, as per requirement, to the Fellow
- h. The Fellow will be required to submit a quarterly report to the host institution and NADA India on the progress and updates on the research project

## Research Proposal

Applicants would be required to submit a detailed research proposal outlining the thesis title, aim, objectives, methodology, expected outcomes and potential impact of anti-doping research, duly signed by the supervisor and head of the department.

## Dissemination of Anti-Doping Research Results

The Fellow would be required to present their research findings at a conference or seminar and submit their research for publication in a peer-reviewed journal. This will ensure that the research has a wider impact and is accessible to the wider scientific community. Due credits shall be given to NADA India & the host institution in the process.

## Ethical Considerations

The research proposal should be reviewed and passed by an ethics committee to ensure that it adheres to ethical principles and guidelines for conducting research.

## The selection criteria

The selection criteria for this Fellowship involves two main steps: screening of applications followed by direct interview. Below is the list of documents to be submitted along with the application form.

- a. Bio-data with cover letter from Supervisor/ HOD
- b. Attested copies of mark sheets of the Master's examination
- c. Proof of the date of birth
- d. Proof of claimed reserved category (SC/ST/OBC)
- e. Research proposal along with approved synopsis (duly signed by the supervisor and head of the department)
- f. Certificate from ethics committee
